## Experience

### Engineer 2nd category

#### **RIAR | Dec 2016 - present**

- Maintenance and repair of dosimetry equipment
- Maintaining records and reports

### Pet-projects

- LazyStaff (<https://github.com/owlscatcher/Lazy-staff>)
- D'n'D telegram bot ([github.com/owlscatcher/Telegram-chat-bot](https://github.com/owlscatcher/Telegram-chat-bot))
- Radiation control system (<https://github.com/owlscatcher/Armstrong>):
  - Manages measurement channels;
  - Provides GUI for monitoring and graphing;
  - Controls light and sound alarms.

## Education

### **MEPHI, Faculty of Physics and Technology, 2011 - 2016**

- Human and Environmental Radiation Safety

### **Dualboot Partners Learn, 2021**

- Fullstack programmer (Ruby On Rails + React, Redux)

### **Hexlet, 2021 - present**

- Front-end dev (DOM + React + Redux)
- Start dev with Ruby on Rails

## Hard skills

- SQL, MS SQL, PostgreSQL
- c#: .net core, .net framework
- git, linux
- ruby on rails, JS (ES6)

## Soft skills

- Purposeful
- Responsible
- Communicative

## Languages

- English, reading the technical documentation
- Russian, native speaker

## Hobbies

- Running a music project
- Weightlifting
